# 1. PROJECT PRESENTATION

TECHFOOD EU-ASIA aims at fostering technological and business collaboration among Small and Medium-sized enterprises from EU Countries (Italy, Hungary and Slovenia) and Asian Countries (China, Mongolia and Vietnam) in the Field of Food Processing and Food Packaging Technologies.

## **Main Objectives**

The project TECHFOOD EU-ASIA is designed to:

- strengthen mutual trade and investment flows between the regions and foster the development of the target sector in project partner countries by establishing of new business cooperation initiative and know-how transfer;
- improve the competitiveness of SMEs, with particular attention to the foodstuff products' quality and security management;
- establish networking and co-operation links among sectoral associations and public institutions in EU and Asian project partner countries, in order to exchange best practices, develop common strategies, promote joint initiatives.

## **Main Actions**

Phase 1. Preparatory activities

- Realisation of a Market Survey of the target sector in each project partner countries;
- Dissemination of a project's SMEs catalogue of selected companies from the target sectors;
- Identification and selection of SMEs from target sector in all project partner counties.

Phase 2. Matchmaking activities

- Scheduling of bilateral meeting between European an Asian companies;
- Organization of two big matchmaking events, in Italy and China;
- Organization of two workshop related to the target sector.

Phase 3. Follow up actions

- Advisory services on demand for European and Asian small and medium-size enterprises;
- Dissemination of Project Final Results.

## **2. PROJECT PARTNERS & ASSOCIATES**

### **INFORMEST Service and Documentation Centre for International Economic Co-operation**

INFORMEST is a Service and Documentation Centre for International Economic Co-operation, established by the Italian Act No. 19/91 and legally constituted by the Regions Friuli-Venezia Giulia and Veneto and the Italian Institute for Foreign Trade (ICE). It has a geographical specialisation in Candidate Countries, Balkan Countries, NIS, China, Mongolia, North Korea and Vietnam and it aims at developing economic co-operation between Italian enterprises and economic operators and their counterparts in the Eastern Countries through the provision of a wide range of specialised and integrated services, such as: assistance and consulting, development projects, information services.

#### **Asian Partners**

##### **CCPIT - China Council for the Promotion of International Trade (CHINA)**

CCPIT is the most important and the largest institution for the promotion of foreign trade in China. The aims of the CCPIT are to operate and promote foreign trade, to use foreign investment, to introduce advanced foreign technologies, to conduct activities of foreign economic and technological cooperation in various forms, to promote the development of economic and trade relations between China and other countries and regions around the world. The CCPIT promotes trade through its functions of information consultation, exhibition, legal assistance, etc.

##### **VAFoST - Vietnam Association of Food Science and Technology (VIETNAM)**

VAFoST is a non- governmental, non-profit making organization with the voluntary participation of scientists, technologists, policy makers, entrepreneurs of different economic sectors in food science and technology and other sciences and technologies related to food science and technology. The Association's objectives are to assemble and unite its members for the exchange of experiences, wide spreading of professional knowledge, enhancement of occupational capability, to make contributions for solving the problems in food domain as well as in agro-food industry, at the same time to make contributions to push up the country's industrialization and modernization.

##### **MNCCI - Mongolian National Chamber of Commerce and Industry (MONGOLIA)**

MNCCI is the main business representative body of Mongolian business community engaging the most of companies, enterprises and trade organizations in its wide range of activities and services and protecting their common interests. The aims of MNCCI are to promote and develop the competitive private sector of Mongolia making it not only an engine of sustained growth but the main provider of economic activity, to make the Chamber a capable and influential organization protecting rights and common interest of the business community and putting forward its proposals in the policymaking process by developing public-private sector dialogue & partnership, too be a leading organization in terms of providing overall economic and business assistance and services to the business community, to be pro-active member of international business community by participating in most effective way in ICC, CACCI and the other international institutions' activities.

## **European Partners**

### **CSI - Consorzio Sviluppo e Impresa (ITALY)**

CSI is an Export Consortium accredited by the Veneto Region, and qualified by the National Law n.83/89. The Consortium intends to favour the internationalization of the enterprises of the Veneto. It organizes entrepreneurial promotion projects (economic missions, workshops, seminars, conferences) and it realizes territorial development projects, mostly in the Eastern of Europe, Centre of America, South America and in the Mediterranean countries.

### **KOPERNIKUSZ INNOVÁCIÓS EGYESÜLET (HUNGARY)**

It is the association specialised in the promotion of innovation, R&D harmonisation, technology and know-how transfer aimed at stimulating Hungarian enterprises to update their productive processes and management methodologies and to apply innovative strategies. It will be supported by the Hungarian Investment and Trade Development Agency – EIC HU727, specialised in investment promotion, trade development, business services and marketing and communication services, which manages 10 regional offices all over Hungary and has a database of 40000 Hungarian SMEs.

### **UP SRC - University of Primorska - Science and Research Centre of Koper (SLOVENIA)**

UP SRC - University of Primorska, Science and Research Centre of Koper operates on a distinctive interdisciplinary basis and lays emphasis also on the research of food quality and safety. These activities are implemented by one of its institutes, the Institute for Mediterranean Agriculture and Olive Growing (ISKO). As a host organisation the UP SRC has successfully obtained the Euro Info Centre SI753 Koper, whose tasks are (since the beginning of 2000) mainly to inform, help and provide consultancy to SMEs with the purpose to create favourable conditions for the development of SMEs. EIC SI753 Koper has been, with the support of the host structure, providing it services to companies from the food-technology field and on food safety as its regular activity and within specific projects (as the Look-East NET project).

EIC SI753 Koper covers three Slovenian statistical regions, where more than 15.800 companies operate in different sectors. As member of the Slovenian EIC network will be supported by the other two Slovenian EICs, in order to guarantee a wider coverage of the Slovenian territory.

## **Associates**

- CERMET Certification and quality research company - Italy
- Confagricoltura Veneto - Italy
- Shaanxi Food Association - China
- Ministry of Economy - Slovenian Intellectual Property Office - Slovenia – Hungary
- Association of Packaging and Materials Handling - Hungary

## **Project activities are supported by:**

- SPRINT - Internationalisation department of the Emilia Romagna Region
- PARMA INDUSTRIAL UNION
- UNICREDIT BANCA D'IMPRESA

### 3. TARGET SECTOR

The project focuses on three EU partner countries – Italy, Slovenia, Hungary and three Asian partner countries – China, Mongolia and Vietnam - where priority target sector **Food Processing Technologies and Food Packaging** has been selected according to the specific characteristics and needs of the regional economic systems and their potential to expand or to cooperate with foreign markets.

The project will involved the SMEs companies from following food processing and food packaging divisions:

- Meat and products of meat;
- Dairy;
- Fruit and vegetable.

### 4. MATCHMAKING EVENTS

The project is focused on the organisation of two large two-day events, one in Italy and another in China. Each event will focus the target sector, food processing technologies and food packaging and will deal with specific issues relevant to the Asian European integration: food safety standards and intellectual property rights.

Each partnership event will be introduced by an intensive and qualified promotional activity which will include the organisation of press conferences, the publication of promotional leaflets and catalogues, economic animation activities at local and international level.

Each event will include:

- one plenary conference;
- one thematic workshop on in-depth issues for the target sectors and Asia – EU integration;
- a business-to-business meetings between 150 SMEs representatives from six countries;
- a permanent help desk area with participation of all project partners will be organised. It will give all necessary support to the participants from organisational point of view and technical assistance during matchmakings.
- support to the participants from organisational point of view and technical assistance during matchmakings.

Place	Number of SMEs for matchmaking	Thematic workshop	Period
Parma (Italy)	150	Intellectual property rights	March 2008
Shaanxi Province (China)	150	Food safety	September 2008
